

Hitesh Goyal

HEAD OF PRODUCT, AI AGENTS AND AGENTIC SYSTEMS

hiteshgoyalofficial@gmail.com | Hyderabad, India (Remote) | goyalhitesh.com | linkedin.com/in/hitesh-k-goyal | github.com/hitesh153

SUMMARY

I lead **AI products from strategy to launch**, hands-on across product and engineering. **Cross-functional delivery** in an Agile cadence, multi-agent systems and voice agents, and the evals and reliability that keep them in production. Built on a foundation of full-stack engineering and data.

EXPERIENCE

Head of Product / RUH AI

Aug 2025 - Present

Remote

- Lead AI product strategy and cross-functional delivery, from concept to launch: planning, prioritization, and execution across product and engineering in an Agile cadence.
- Shipped production multi-agent systems and real-time voice agents end to end, hands-on from spec to release.
- Own agent reliability and LLM evaluation: autonomous testing, deterministic validators, and evals gating every release.

Head of Product Development / Rapid Innovation

Aug 2021 - Jul 2025

Previously Manager, Discovery and Design · Remote

- Led cross-functional product delivery for client AI and blockchain products, discovery to delivery, across fintech, healthcare, and enterprise, with client stakeholders throughout.
- Owned multiple 0 to 1 products in parallel: scoped, specced, staffed, and shipped.
- Turned unclear requirements into product specs, prototypes, and architectures.

Founder / Workvel

2019 - 2023

- Founded a work-and-travel startup that introduced people to digital nomadism. Ran product, operations, partnerships, and community end to end.

Consultant and Analyst / InfoCepts

2017 - 2021

- Data and analytics consulting for global enterprise clients: dashboards, visualization, and BI platforms (Angular, D3.js, Java/Spring).

SELECTED WORK

- Sentinel Guardian:** autonomous testing agent, 11 sub-agents. github.com/hitesh153/sentinel-guardian
- Diorama:** 3D workspace for directing AI agent teams. github.com/hitesh153/diorama-builder

SKILLS

AI SYSTEMS

Agentic AI Multi-agent orchestration Voice AI LLM evals Context engineering RAG Agent reliability MCP

PRODUCT & DELIVERY
